2. I advised [REDACTED] that the Director had approved of our withdrawal of \$4.6 million from the Contingency Reserve for [REDACTED] but that in presenting this request to the Bureau of the Budget he should alert them to the fact that we will probably be coming over for another \$600,000 for the same purpose.

4. Jim Garrison was up to report to me briefly on his trip to the [REDACTED] He says that the [REDACTED] which he bought [REDACTED] subject to our inspection, is more than 25 per cent defective. He is satisfied that it has cost us more than it is worth, and therefore, he is advising [REDACTED] that the entire shipment is unacceptable and that we will either destroy it on the spot or ship it to any place he designates, collect.

5. I have asked Jim to provide me with a master plan for the move to the new building by 1 July. This should give us time to have this plan examined by other components and tidied up before we actually start to move in August and September.

6. [REDACTED] telephoned about the new Career Service Regulation and I told him to go ahead and send it to the other Deputies and direct to other DD/S Office Heads and Staff Chiefs. I also told him to notify the Staff Chiefs and Office Heads that this will be subject to an early discussion with the DD/S.
